Colours: black only
 Unique interlocking system
Packed - 100 mats per carton
Size: 200mm x 200mm (25 mats = 1 square metre)
 Special assembly pliers available. Part no: 2500103
 Resistant to salt, oil, beer, wine & spirit.
 Rot proof on concrete & hard floors.
 Cool in summer & warm in winter.
Also available in other colours for larger quantities

Product Type: Vers-A-Tile Flooring
Make: FDA
Application: Industrial & Domestic
Product Description: **Size:** 107.5mm x 107.5mm (4.23" x 4.23")
Part no: 2032972 (Black)
 2032966 (Terracotta)
Colours: Terracotta & Black (others available on request)
Chemical Resistance: Polyethylene will resist attack by inorganic acids, alkalis and aqueous solutions and at room temperature is almost completely insoluble in all organic solvents.

Ultra Violet Exposure: Oxidation is kept to a bare minimum by the addition of an antioxidant, which provides added protection particularly against the effects of high temperature exposure.

Pool Chemicals: Dilute solutions of chlorine, together with calcium hypochlorite, sodium hypochlorite have little or no effect on polyethylene.

Water: Polyethylene is very resistant to water and water vapour! It is, in fact, one of the best water vapour barriers available. Polyethylene has one of the lowest water absorption values of all commercial plastics.

Cleaning: A soft brush or broom is recommended together with warm water - hose down. FDA Vers-A-Tile is an exciting concept in a Polyethylene Anti-Slip floor tile for interior and exterior use. They simply clip together.

Easy to install, instantly useable, long wearing and maintenance free. They can be cut to shape corners and bends and can be rolled up and stowed away.

Alternate colours can be used to spell out product or company names

Updating: Pathways, Verandahs, Laundries, Porches, Damp areas

Beautifying: Courtyards, Sun decks, Patios, Terraces, BBQ areas

Protecting: Boat decks & floors, Behind bars, Cellars, Garage floors, Truck floors

Product Type: File Handles
Category/Make: FDA
Application/model: Automotive and Industrial
Product Description: It is recommended a file or rasp should always be used with a handle. Not only does this prevent injury, but it allows for the entire length of the file or rasp to be utilised. These handles are made from a high grade injection molded plastic and designed to grip the tang of your file or rasp tightly by using the 12 internal "splines". 6mm Hole - Suitable for files 100-150mm.
Part No: 09PHB6

POST CAPS

090/E42
210/E42

Product Type: Star Post/Picket Caps and Strap

Category/Make: FDA

Application: Industrial, Agricultural, Construction & Domestic

Product Description: Available in 60mm and 100mm in height
